

The safety, security and prosperity of your business and staff in your hands!

A surveillance and security management platform designed for busy managers and owners like you.

eyeson 360

e-Buzz

- Chat with teammates, managers, or an offsite security professional and make good decisions on the spot, with fast and efficient staff internal communication.
- Silent notifications for critical events such as guest complaint, fight, slip-and-falls.
- Task management linked to pictures and camera video footage.

MyEyeson Cloud Dashboard

- Secured cloud access to loss prevention and business intelligence tools, including Investigation and Task Management, all in your hands.
- Store occupancy reports and Real Time exception alerts, including Staff Performance Analytics.
- POS data linked to camera video footage.

@Ease Remote Support

- Comprehensive service package ensuring System Health to keep Murphy's Law at bay.
- 24/7/365 Unlimited Remote Support, including Training and Coaching.
- Field Service Ticket Management compatible with most VMS Systems.

Smart Surveillance

- Unmatched protection, efficiency, and peace of mind for your business operations.
- Designed to help you reach your business performance objectives, without breaking the bank.
- Our surveillance platforms will deliver real ROI on your security investment, through ease of use and reliability.

Customs Integrations

- Nearly 100 POS integrations and dozens of strategic partners.
- Bar code, scale, and RFID integration for enhanced inventory controls.
- Facial Recognition and Mask & Body temperature detection, to protect your business from Covid and future pandemics.

Expert System Design

- Solutions that fit your business and life goals, enhancing management, procedures, sales and security.
- Our blind spot free designs provide full accountability for your business operations.
- POS transactions linked to video for easy one-click review.

Eyeson POS Audits & Investigations

- Fast reports and investigations, from our offsite loss prevention team, to your managers. Request investigations on demand.
- Review alerts and exception transactions, such as Returns, Voids, Discounts, and more.
- Verify SOPs and Identify critical events requiring immediate attention.

Video Verified Burglar Monitoring

- 24/7 monitoring and cameras verification for alarm detection. Reduce false alarms or unnecessary police visits with video and audio verification.
- Remote arming, disarming, and bypass of protection zones, including real-time alerts and reports from any device.
- No long-term contracts.

AI Virtual Fence

- AI-based perimeter intrusion detection, to see intruders better than the human eye can.
- Two-way audio and video response by trained security monitoring professionals.
- Compatible with any commercial camera system for seamless integration.

Cloud Access

- Use your smartphone to open your store doors from anywhere. Unlock doors from home for after-hours maintenance technicians, and watch them work from your couch.
- Disable access with one click and secure cloud log of all access data.
- Never re-key your locks again.

Cloud Vault

- Protect your business from slip and falls or employee-related lawsuits with our reliable backup for critical footage, ensuring easy retrieval from the cloud in real time.
- Cost-effective storage with award-winning video compression technology. Keep your most valuable information safe for up to 4 years.
- Zero impact on your internet bandwidth.

Cloud Guard

- Camera remote monitoring with voice-down from professional security agents.
- Two-way audio and video response for immediate action.
- Compatible with most existing camera systems, ensuring peace of mind for owners, staff and guests.

Finally, an **Intelligent Video System** that knows what you need to see!
